

# TECHNO WK300

The TECHNO WK300 smart kiosk is an advanced and versatile device that offers a wide range of services required by different institutions, such as banks, corporations, government organisations, and various businesses. With its powerful hardware and multiple communication channels, this kiosk is a secure and efficient cashless banking solution for bank branches, payment terminals, and other locations, providing the highest quality, speed, and security. Equipped with its built-in camera, the kiosk offers facial recognition for identity verification. It can further enhance identity authentication by incorporating additional identification methods like fingerprint and card recognition based on customer preferences and requests.

The TECHNO WK300 smart kiosk is suitable for:

-  Banks and financial institutions,
-  Chain Stores,
-  Insurance companies,
-  Hospitals,
-  Restaurants and fast-food chains.
